**KwikSwitch**®

Started in 2018, Kiotel Automation Pvt Ltd is DIPP registered startup, working towards innovation in IoT business. The company's management team has industry experience of more than 25 years. The company founders have always believed in the importance of building a great, enduring brand that strikes a balance between profitability and social conscience for energy saving.

The company believes in stable hardware design and delivery to minimize the failures. Before any purchases of components, PCBs, etc., the company insists on performance test report before using them in the assemblies. That helps minimize the hardware failures.

The company believes in technology advantages. All the products are designed for over the air updates. In case of any bugs or issues, customers can contact the customer support team, to resolve the issues, if any, over the air remotely or on-site, if necessary.

Certificate No.: DIPP25464

Department of Industrial Policy & Promotion
Ministry of Commerce & Industry
Government of India

**CERTIFICATE OF RECOGNITION**
**Department of Industrial Policy and Promotion**

This is to certify that **KIOTEL AUTOMATION PRIVATE LIMITED** incorporated/ registered as a *Private Limited Company* on **02-04-2018** , is recognized as a startup by the Department of Industrial Policy and Promotion.

# Our Mission

Designed, developed and manufactured in India, KwikSwitch's objective is to replace conventional modular switches with Wi-Fi smart switch as the new standard. It aims to become primary choice for residential and commercial spaces looking for style, comfort, security and energy saving.
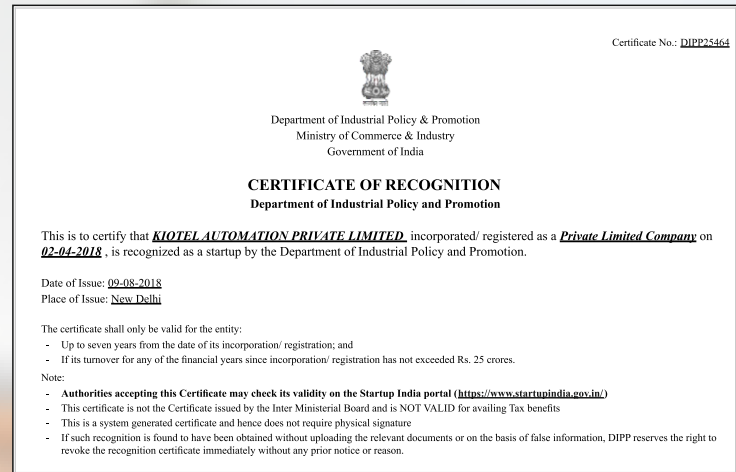

# Kwikswitch ®

**01** Remove conventional Switchboard

**02** Replace it with KwikSwitch board without any changes in wiring

**03** Start using it like a normal Switchboard with capacitive touch switches

**04** Download the KwikSwitch mobile app

**05** Login with secured authentication

**06** Follow screen instructions to add KwikSwitch board to the account only once

**07** Easily share the switchboard with family members by clicking 'share switchboard' option

**08** Control the Switch Board from anywhere in the world

# Why KwikSwitch?

- Wi-Fi communication protocol
- Hassle-free installation and easy integration
- No hidden or subscription cost
- Over the air updates for each hardware connected
- Remote maintenance system
- No extra space required for controllers or no changes in wiring

KwikSwitch's mission is to deliver a plan to effectively control, monitor and secure every home with new technology advances.
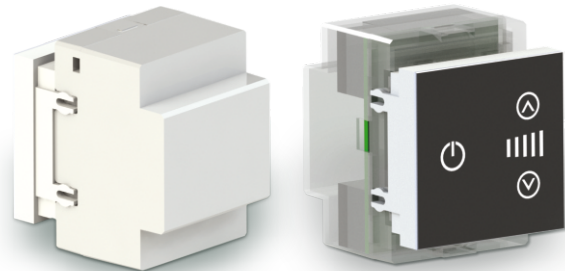

❖ KwikSwitch has a unique feature of sharing the app temporarily

❖ Hotel reception will share controls of particular room to a guest for specific period

❖ Front desk can monitor airconditioner and lights incase of guest is not occupying room

❖ Front desk can control passage and premises lights effectively
